REMARKS

25X1

The Stralsund-Parow (N 55/P 44) airfield was still un-serviceable because of many deep bomb craters. The undamaged section of the landing field was under cultivation. Five intact houses and the officers club south of the field were occupied by laborers of the Stralsund Volkswerft (state-owned shipyard).

25X1 Comment:

No changes occurred at the field as compared with observations of previous months. There are no indications for an intended reconditioning of the field.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
